Respectfully submitted,

J. H. RING,	} <i>Superintending</i>
E. L. DUNHAM,	
R. E. MORGAN,	
	<i>School</i>
	<i>Committee.</i>

Your Superintendent wants to say just a word of congratulation in the progress of our schools for the past year, and to thank the citizens of the town for their kind interest which has been manifested in the schools this year.

We have made every effort this year to secure a class of teachers that was up to the standard in every respect, that our scholars may be steadily progressing and in the near future stand one of the first in the State. In order to do this we were obliged to advance the wages of some of our teachers in order to secure their services.

We done away this year with the transportation bill which has in years past been constantly drawing from our finance, but this has been chiefly overcome by furnishing good teachers, and getting a good interest in our general school system. But we must not stop here, let each one of us be ever ready to do our part and work in harmony in order that the best possible results may be obtained, and we feel to hope that it will be a unanimous call from our citizens for a steady progress, and that each school year may contain 30 weeks of good school.

The question in the past has been where are we to get good teachers. This is one of the easiest problems of the school work, as we advance in wages to meet the demand and to compete with other towns we find no difficulty in getting first-class teachers.

Your Superintendent feels to call your attention to one more clause in our school work, and that is to place in the Grammar school at Locke's Mills a two years' course of High School studies that we may advance our children as far as possible before leaving our own school; and this will place many in a position whereby they can help themselves. This in my opinion will not mean much extra expense, and I hope each and all will give this a careful consideration, and should this be approved by you I should feel confident that we would not be excelled in school system by any towns in the State.

Respectfully submitted,

A. J. HAYES, *Smperintendent.*
